1,500,000 Garden Soldiers in Nation

FRANCISCO, While no accurate statistics are dignified and made popular to a deavailable in connection with the acreage cultivated or the amount it produced, returns from California's tem of the country, according to of of the country.

The suggestion made by Franklia s not the great generals who are leading our troops who are being so honored. There are a few plots named after Pershing, or Bell, or March, or Wood. It is the non-commissioned officer or the private in the ranks. The name of the father, brother, husband or other member of the home circle is selected.

Although but four months old, and entering the field late in the season, the United States school garden army has enlisted 1,500,000 garden soldiers throughout the nation.

Twenty thousand acres of unproductive home and vacant lots have been converted into productive land. This will release an equal acreage now used in truck gardening for the production of other food stuffs more important for war purposes. It will also, relieve transportation congestion through home consumption of home produced foodstuffs.

Fifty thousand teachers have received valuable instruction in gardening through the garden leaflets written by experts and distributed. One million five hundred leaflets have been sent out from the quarters in Washington.

One and one-half million children have been given something you do this summer: something that will help carry the burden of their country in this struggle for freedom, something that will help them to build character and something that will appeal to and develop their pa-
